

**Best Pearl
Food**

**Aseptic fruit cube,
we are best!**

Best Pearl Food(Tianjin)Co., Ltd.

We are the first and invention manufacturer in China to produce dice lychee, and diced pineapple packaged into aseptic bag. We are a manufacturer specialized in various kinds of diced fruit including diced such as lychee, diced pineapple, diced aloe, etc.

Pineapple in syrup

Application: Ice cream, Salad, Food additives, Juice, Wine, Cake decoration, Canned etc.

Pineapple is the third most important tropical fruit all over the world. Frozen pineapple cube take the lion's share of the market , but the high costs such as high storage costs and transporting frozen containers have become more and more evident. In view of this, we package diced pineapple into aseptic bag so that customers needn' t to invest so much in raw materials.

The taste of our final fruit cube is more near original one, the fruit cube is hard, fresh and not too much damaged by heating processing. We deal with the fruit that is more temperature sensitive, not so easy to keep, and not so easy to keep cube shape.
